

# Tharusha Navod Kasthuriarachchi

## Web Developer

### PROFILE

I am an enthusiastic undergraduate student with a strong passion for web development specifically in frontend design using HTML and CSS. I am currently seeking an internship opportunity that will allow me to gain real world experience and apply the knowledge I have acquired in my academic pursuits. My objective is to work in a collaborative environment where I can contribute my skills learn from industry experts and grow both personally and professionally. I am committed to using this internship to improve my skills, tackle complex challenges and make valuable contributions to innovative web projects.

### PROJECTS

#### Ceylon Magna Ecommerce Website. [GitHub](#)

This is an online shopping website. more attention has been given to electronic items. HTML CSS and Java Script were used to create the frontend, PHP was used for the backend and SQL was used as the database.

#### ABC laboratory Appointment System [GitHub](#)

Java Script, PHP, Html, CSS, SCSS were used as programming languages and SQL was used for the database. This can be accessed by four parties and advanced features including dashboard have been added for all parties and some parties can send emails and generate pdf and online payment interface available

#### Signature Cuisine website. [GitHub](#)

This is a website designed to suit an Cafe or Restaurant. It consists of a frontend created using HTML CSS and a backend created using PHP. Videos have been added for the background as well as for the gallery.

#### Hospital Management Website (Ongoing project)

This is a website where the frontend is being created by HTML CSS Java script and the backend is being created by PHP. MySQL is used as the database of this project
